AN IDEAL PLATFORM FOR DEMONSTRATING THE ENTIRE CHAIN OF ANIMAL PROTEIN CULTIVATION AND PRODUCTION, REPRESENTING THE FULL RANGE OF INDUSTRIAL AND TECHNOLOGICAL SUPPORT FOR THE MEAT AND POULTRY INDUSTRY «from feed to food».

MEAT & POULTRY INDUSTRY RUSSIA EXHIBITION

The exhibition has been held in Russia since 2001 and has established itself as the most important international business platform for demonstrating innovative products, technologies and equipment for poultry, cattle, pig and feed production in accordance with the concept of «from feed to food». The exhibition fulfills the task of providing specialists in the meat and poultry industries with a complete set of tools for further effective work in the domestic and foreign markets and the production of high-quality and safe products containing animal protein.

SUMMIT

Meat & Poultry • Fish & Seafood

SUMMIT «AGRICULTURAL POLICY OF RUSSIA: PRODUCT SAFETY AND QUALITY»

The most important platform for discussing global trends in the industry, issues of state policy to support and develop the agro-industrial complex in modern geopolitical conditions, a consolidated position of government and business on issues related to state support for meat and poultry production and alternative sources of protein, as well as prospects for the development of the poultry and livestock industry in the context of intersectoral cooperation, export potential, product safety and quality.

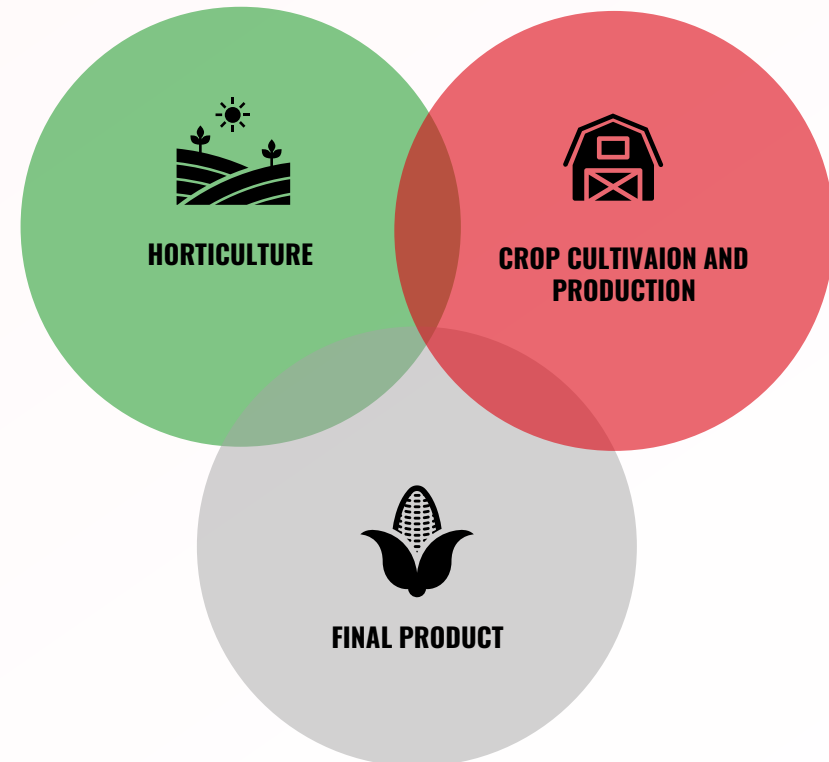

MEAT BATTLE

An interactive platform for the demonstration and presentation of the final product of the meat industry, including poultry products, in the concept of «from feed to food».

INTEGRATION OF THE NEW SECTION OF THE EXHIBITION

HORTICULTURE WILL EXPAND THE UNDERLYING PRINCIPLE «FROM FEED TO FOOD», AS CROP PRODUCTION IS AN INTEGRAL PART OF THE ENTIRE CHAIN OF CULTIVATION AND PRODUCTION OF HIGH-QUALITY PRODUCTS CONTAINING ANIMAL PROTEIN

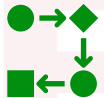

FROM FEED TO FOOD
